Macro Flash Diffuser

Materials Needed

Cokin P Filter Holder

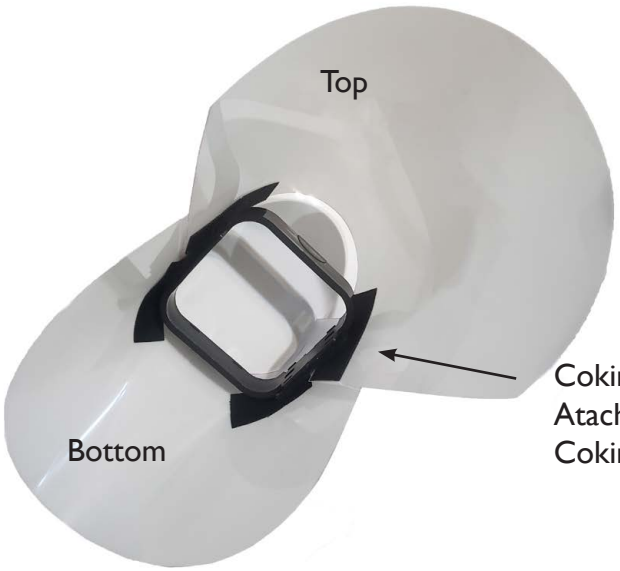
Cokin P-Series Adapter ring to match your lens filter thread.

Cokin P-Series Filter Hood

Mylar or any diffusing meterial that is flexible but keep its shape. Some presentation folders work.

Adhesive Velcro Strips

Simply, cut the mylar or folder using the template. Then attach the velcro (hook side) on the mylar pieces in the locations marked on the template. Attach the (loop side) strips on he side of the Cokin Holder and assemble to match the photos below. It's easier to mount the hood to the Cokin Filter holder before attaching the mylar pieces.



Coking P-Series Hood.
Ataches to the P-Series
Cokin filter holder above.
